Mobile Application Developer with expertise in iOS and React Native development having 5+ years of professional experience in multiple domains of e-commerce, social apps, chatbots, events booking, etc.

My Career objective is to enhance my skills up to the level in which I can get better opportunities and to apply from my education and experience to achieve company goals and objectives.

Work Experience

Sunbonn

Jan '19 - Present

Working as a Software Engineer (iOS Developer and React Native) developer responsible for building and maintaining iOS and React Native Apps.

React Native Developer

- **E-Commerce App**

Currently developing an E-Commerce Consumer and Rider Apps as SAAS for KSA client with a scalable architecture to handle multiple builds for multiple clients from the same source code with multiple dynamic themes, dynamic fonts, and dynamic assets changeable from the client admin panel.

This app also supports the Arabic Language as well.

- Wrote clean, clear, efficient, well tested, and maintained best practices.
- Multiple apps for different clients from the same source code.
- Multiple dynamic themes, multiple dynamic fonts, and multiple dynamic assets.
- Code Push, no need to send new builds for every release.
- Hyper Pay with native integration.
- Multi-Lingual: English and Arabic

- **ChatBot App**

Developed a chatbot application for the KSA client that asks for simple surveys about different products and based on their filled surveys gifts will be given to the users who completed the surveys

- Multi-lingual: English and Arabic Language.
- Wrote clean, clear, efficient, well tested, and maintained best practices

iOS Developer

- **Social Media App**

I have developed a Social Media App for USA clients in native iOS which is a combination of different social media apps like Whatsapp, Instagram, Facebook, Snapchat, and its life and being used in the USA.

This project was completely handled by me from development, project management, sprint planning, and client handling.

- Wrote clean, clear, efficient, well tested, and maintained best practices.
- Worked extensively on Google Maps Features like Clusters, Markers, Location Search, and Location Detection like Careem or Uber.
- Real-Time Chat using Firebase Firestore.
- Worked Extensively on Media Management (Image, Video, Text Editor, Link, and Audio).
- .Added business module.
- Collaborated with other team members to get the work done.
- Application demos to International Clients.
- Weekly Status Reports to Clients.
- Project Planning.

iOS and Android Developer

Worked as an iOS and Android native developer responsible for gathering knowledge and project scope from the product owners and build applications from scratch and maintain already build apps.

- **Ninth Degree Car Events (iOS and Android)**

Developed an event booking app for the car racing events in Dubai to launch it as a product for different clients.

- Real-time tracking of the cars using Pusher API.
- Google maps the path between starting and finish lines.
- Push Notifications
- Different flavors in android.
- Multiple Targets in iOS

- **Askofy Polling App**

Developed a social polling app for iOS from scratch and maintained an android version of it. A user can ask multiple questions with different polling options by creating hashtags and get honest feedback from the users.

- Worked with the team to get a better understanding of the product and integrated new features.
- Build Hashtag systems in the app

Right Solutions

Feb '16 - Dec '17

iOS and Android Developer

worked as an iOS and Android developer to build apps from scratch to deployment and tested high-quality apps. Worked on Google Maps, Payment Solutions like Paypal, SADAD, and Payfort, Social Network API, Push Notifications, App Localization - Arabic, Fit kit, etc

- **iOS Apps**

- An e-commerce app for beauty products.
- An e-commerce app for electronic products.
- A hospital appointment app.
- An app to provide services to households and home repair.

- **Android Apps**

- Home maintenance app.
- A grocery app.
- An e-commerce app,
- A ride-sharing app,
- A mall listing app of KSA
